SPORTDOG.COM

GEAR THE WAY YOU'D DESIGN IT®

That's not some marketing mumbo-jumbo written by a bunch of suits. We really are just like you and your buddies: Obsessed with dogs and hunting. And, like you, we spend as much time as possible walking the prairie, roaming the woods or searching the sky from a waterfowl blind. We also respect the hunting tradition and know the importance of conservation. For all those reasons and more, we'll continue to create our products based on the guiding principle of providing Gear the way you'd design it®.

OUR GEAR LEADS THE FIELD BECAUSE WE'RE ALWAYS IN THE FIELD

In an industry seemingly overcrowded with electronic dog training products, Radio Systems® Corporation's renewed venture into the sporting dog market with the creation of SportDOG Brand® in 2003 might have appeared to be driven only by misguided ambition. However, that was far from the case. Our broad line of superior products is the result of focusing on a promise we made to our customers on Day One: We will deliver "Gear the way you'd design it."®

We have made good on that promise by literally designing our products in the field. A concept is nothing more than a concept until we analyze it with challenges such as heat, cold, rain, snow, dust, mud and wind in mind. Every sportsman knows such conditions are just part of the hunt. So, once we've built a prototype product, it's back to the field for rigorous testing with input from everyone on our staff. To us, these field sessions are just another day at the office. And they are the difference between products that look good on paper or in advertisements and those that actually perform the way you demand.

That's how we've been operating from the beginning. It must have been what the industry needed, because today, just a few short years later, SportDOG Brand is the most recognized brand in the electronic dog training category. Our products are known not only for their quality, but also for being the best value for the dollar out there.

More good news for you, our customer, is that we're just getting started. Recent acquisitions include Invisible Technologies (manufacturer of Innotek® products), Lucky Dog™ Training Equipment and Tracker® Technology. Such business ventures allow us to add to our product lines and offer more variety. But no matter how fast we grow or how large the SportDOG™ name becomes, we will never forget our promise to keep making "Gear the way you'd design it."

TEK™ 1.0

SportDOG Brand's compact TEK™ system is the industry's first combination e-collar and GPS unit. Train (with stimulation, vibration or tone) while keeping track of your dog from up to 7 miles. The transmitter with electronic compass controls and tracks up to 12 collars at once. Manufactured with DRYTEK™ waterproof design technology.

SPORTHUNTER®

The rugged, versatile SportHunter® Series excels in all environments and is especially suited to upland and multi-dog hunting situations. The SportHunter Series can be expanded to control multiple dogs by adding SportDOG Brand® Add-A-Dog® collars. With the comfortable "soft coat" transmitter finish, these units are a pleasure to use.

DRYTEK®

WETLANDHUNTER®

The waterfowler hunts in unique settings and needs top performance from his most important asset: his retriever. So SportDOG Brand® created a series of remote trainers specifically to meet those demands. The WetlandHunter® isn't some old product reintroduced with a new name. It was designed from the ground up by pros like Charlie Jurney, Chris Akin and Tom Dokken, to name just a few members of the SportDOG team who stake their livelihood on how well their dogs perform. All transmitters and collar receivers are guaranteed waterproof and submersible, and they look outstanding - without standing out - because they are finished in Realtree Max-4® camo, a waterfowling favorite.

FIELDTRAINER®

The FieldTrainer® 400 Series is loaded with technical breakthroughs in the smallest package available in this price range. Features such as 3-dog capability and waterproof / submersible transmitters and receivers are among the most advanced features ever offered in a mid-range training system. With 400 yards of range, these palm-of-the-hand sized models are designed for field training and hunting with close-working dogs. The comfortable “soft-coat” transmitter finish makes these units a pleasure to use. And because we know that no two dogs are alike, we’ve designed the 400S model to provide higher stimulation power for larger or stubborn dogs

SPECIALTY GEAR

UplandHunter®: From the big wide open of the prairie to the thick tangles of northern alder swamps, keeping tabs on hard-running pointing dogs calls for unique gear. Our UplandHunter® system fills that niche. This is the pinnacle of SportDOG Brand® efficiency. A situation-programmable transmitter controls a compact, waterproof collar receiver and at the same time remotely operates a rugged, waterproof audible beeper. Control and flexibility are always at your fingertips. Like all SportDOG Brand systems, the UplandHunter is easily expandable to multi-dog use with Add-A-Dog® collars.

ProHunter®: SportDOG Brand has redefined the meaning of "classic" by meshing the ProHunter's traditional transmitter design with the same advanced features incorporated into our newest remote trainers. The new

ProHunter® 2525 is a workhorse system that fits with virtually any sporting breed. With a range of up to 2 miles, it's ideal for hounds, beagles and far-ranging pointing dogs. For hunters and trainers who want the best of both worlds, this is it! Once again SportDOG Brand delivers on our promise: Gear the way you'd design it.®

HoundHunter®: With the introduction of a new HoundHunter® model specifically designed for controlling tracking and trailing dogs, you keep the thrill of the chase within your control. The model SD-3225 allows control of up to six dogs from one compact transmitter. It is ideal for hunters who pursue bears, bobcats, mountain lions and raccoons with multiple dogs. With a range of up to two miles, keeping control of a long-range pursuit is easier than ever.

ALL-PURPOSE GEAR

YardTrainer: The YardTrainer 105 is the perfect choice for training around the house or in the yard. Great for basic obedience training. The YardTrainer 105S is designed especially for tougher or stubborn dogs.

NoBark: The SportDOG Brand® NoBark 6 is the easiest-to-use bark stopper ever invented. Just turn the battery to the “on” position and put it on your dog.

The SportDOG Brand NoBark 10R and NoBark 18 will never mistake anything for your dog’s bark except, well, your dog’s bark. The patented design requires both the sound of your dog’s bark and a tangible vibration from the bark to occur at the same time before it corrects your dog. Every other anti-bark system available triggers off one or the other, but not both. Hear the quiet?

In-Ground Fence: The SportDOG Brand® In-Ground Fence is designed to keep your dog in yards up to 100 acres. Safe and effective for all dogs over 10 lbs. The system works by delivering mild correction through two Contact Points that touch your dog’s neck. If your dog crosses the established barrier, a correction will be sent to get your dog’s attention, but will not harm him. You can customize the level of correction to match your dog’s temperament, and the adjustable collar allows you to create a perfect fit for your dog.

WITH A LITTLE HELP FROM OUR FRIENDS

Why I use SportDOG Brand®:
"SportDOG is an innovative company run by sportsmen who listen to the needs of their fellow sportsmen. SportDOG products have performed for me under the rigors of professional training and harsh South Texas hunting conditions."

- RONNIE SMITH, Ronnie Smith Kennels

"SportDOG products are extremely durable, waterproof and reliable, not to mention everyone at SportDOG from the top down runs dogs and hunts. This is not just another e-collar company."

- TOM DOKKEN, Dokken's™ Oak Ridge Kennels / Dokken's™ DeadFowl Trainers

"I changed to SportDOG Brand because I need a durable, reliable product. Their company and staff really understand what I need in a 21st-century dog training collar."

- RICK SMITH, Rick Smith Kennels / Rick Smith Seminars Crozier, Virginia

"I have been in the dog business for a long time and have tried virtually every product on the market. Each day, we train a high volume of dogs which means there is no room for compromise for any equipment, but especially with our e-collars. I am completely committed to anything that will make my job easier or make my dog's learning simpler.

Having done field testing for most of the e-collar companies, I appreciate the quality that SportDOG is putting into their units. They work when you need them to work and allow a great deal of flexibility, from the stubborn

bad guy down to the soft wallflower. Add a waterproof guarantee to this with unbeatable pricing and you have the perfect unit. Above all of this, their customer service is second to none. Before you buy your next e-collar, check out the SportDOG line, your dog will be glad you did."

- CHARLIE JURNEY, Beaverdam Kennels

"Over the last 15 years of training sporting dogs for competition, hunt tests and hunting, I've had the opportunity to use just about every dog training aid invented, including all types of e-collars. When I first started training with e-collars, I could not believe how much faster and more effectively you could train a dog with a good e-collar.

With many choices in e-collars available, choosing the right one for you can be confusing. There are a few things that my clients, weekend warriors and avid hunters have in common with the serious amateurs and professionals that are out there competing with their dogs: They want an e-collar that is very easy to use, will work when they need it to and offers the best value for their dollar. The e-collars offered by SportDOG Brand fit the bill. As I've used these systems this season, I've been impressed in every way. Backed by outstanding customer service, SportDOG provides me and my clients with what we need in an e-collar."

- CHRIS AKIN, Winner 2003 Great Outdoor Games / Super Retriever Series / Professional Trainer / Owner of Webb Footed Kennels Bono, Arkansas

CANINE ATHLETE™

Day in and day out, your dog gives you 100 percent. To help him get the most out of all that effort, SportDOG Brand® has developed the Canine Athlete series. Choose from or mix these six proprietary formulas blended with best-quality ingredients: **HYDRATION** - To help maintain normal fluid levels during extreme hunts; **HIP/JOINT** - To sustain normal joint function in challenging conditions; **DIGESTIVE ENZYMES** - To support healthy

digestion and maintain intestinal health; **SENIOR ACHES** - To promote long-term health in your dog's late stages of life; **PERFORMANCE VITAMINS** - To help keep your dog in peak condition year-round; **PERFORMANCE SNACK BAR** - To use before, during and after strenuous activity. Support your dog's health with Canine Athlete, and spend more time in the field where you - and your dog - really want to be.

CANINE ATHLETE

BEYOND BASIC NUTRITION.

- PERFORMANCE VITAMINS**

 - :: EASY-TO-USE WAFERS SUPPORT AND MAINTAIN PHYSICAL AND MENTAL DEVELOPMENT, ENERGY, STAMINA AND IMMUNITY
 - :: INCLUDES VITAMIN AND MINERAL SUPPLEMENTS THAT COMPLEMENT DOG FOODS BY HELPING TO SUPPORT A VARIETY OF METABOLIC FUNCTIONS
 - :: VITAMINS AND MINERALS HELP MAINTAIN YOUR DOG’S HEARING, VISION AND SENSE OF SMELL
- ADULT HIP / JOINT**

 - :: RECOMMENDED TO SUPPORT HEALTHY HIP AND JOINT FUNCTION – HELPS TO MAINTAIN JOINT FLEXIBILITY
 - :: EASY-TO-USE WAFERS WITH SPECIAL FORMULATION OF ANTIOXIDANTS TO MAINTAIN METABOLIC EFFICIENCY, AND TO HELP SUPPORT STRONG BONES AND MUSCLES
 - :: INCLUDES GLUCOSAMINE, CHONDROITIN, METHYLSUFONYLMETHANE (MSM), COLLAGEN, AND OMEGA-3 FATTY ACIDS THAT HELP MAINTAIN HEALTHY CARTILAGE, JOINTS, TENDONS AND SYNOVIAL FLUID
- HYDRATION**

 - :: PERFECT BALANCE OF VITAMINS AND MINERALS TO AID METABOLIC FUNCTION FOR ENDURANCE AND NORMAL RECOVERY
 - :: MICRONIZED POWDER INGREDIENTS IN 17 HANDY STICK PACKS FOR QUICK AND EASY IN-FIELD MIXING
 - :: FORTIFIED WITH ANTIOXIDANTS THAT SUPPORT ABSORPTION OF FLUIDS AND VITAL NUTRIENTS

FOR THE BIRDS 20 YEARS OUT OF RANGE

The SportDOG Brand Conservation Fund® supports game populations by donating time and funding to projects that ensure hunters and their dogs will have wild places to pursue wild game for generations to come. From grants that fund local habitat-enhancement projects to large investments in partnerships with some of the most respected national conservation organizations in the United States, this program highlights our support of habitat and wildlife populations that depend on these natural resources.
