**GEAR THE WAY
YOU'D DESIGN IT®**

SPORTDOG.COM

A man in hunting gear, including a cap, jacket, and gloves, stands in a field with a black Labrador. The background is a dark, textured wall.

GEAR THE WAY YOU'D DESIGN IT®

That's not some marketing mumbo-jumbo written by a bunch of suits. We really are just like you and your buddies: Obsessed with dogs and hunting. And, like you, we spend as much time as possible walking the prairie, roaming the woods or searching the sky from a waterfowl blind. We also respect the hunting tradition and know the importance of conservation. For all those reasons and more, we'll continue to create our products based on the guiding principle of providing *Gear the way you'd design it*.

Kevin Lee & Bullet

SPORTDOG SALES & FIELD STAFF MANAGER

OUR GEAR LEADS THE FIELD BECAUSE WE'RE ALWAYS IN THE FIELD

In an industry seemingly overcrowded with electronic dog training products, Radio Systems® Corporation's renewed venture into the sporting dog market with the creation of SportDOG Brand in 2003 might have appeared to be driven only by misguided ambition. However, that was far from the case. Our broad line of superior products is the result of focusing on a promise we made to our customers on Day One: We will deliver *Gear the way you'd design it.*®

We have made good on that promise by literally designing our products in the field. A concept is nothing more than a concept until we analyze it with challenges such as heat, cold, rain, snow, dust, mud, and wind in mind. Every sportsman knows such conditions are just part of the hunt. So, once we've built a prototype product, it's back to the field for rigorous testing with input from everyone on our staff. To us, these field sessions are just another day at the office. And they are the difference between products that look good on paper or in advertisements and those that actually perform the way you demand.

That's how we've been operating from the beginning. It must have been what the industry needed, because today, just a few short years later, SportDOG Brand is the most recognized brand in the electronic dog training category. Our products are known not only for their quality, but also for being the best value for the dollar out there.

More good news for you, our customer, is that we're just getting started. Acquisitions include Invisible Technologies (manufacturer of Innotek® products) and Lucky Dog™ Training Equipment. Such business ventures allow us to add to our product lines and offer more variety. But no matter how fast we grow or how large the SportDOG name becomes, we will never forget our promise to keep making *Gear the way you'd design it.*

SPORTDOG BRAND VP

English Setter owner (Ripley & Roxy), bird hunter,
and big game hunter

TEK 1.0

SportDOG Brand's compact TEK system is the industry's first combination e-collar and GPS unit. Train (with stimulation, vibration or tone) while keeping track of your dog from up to 7 miles. The transmitter with electronic compass controls and tracks up to 12 collars at once. Manufactured with DryTek™ waterproof design technology.

SPORTHUNTER®

The rugged, versatile SportHunter® Series excels in all environments and is especially suited to upland and multi-dog hunting situations. The SportHunter Series can be expanded to control multiple dogs by adding SportDOG Brand® Add-A-Dog® collars. With the comfortable "soft coat" transmitter finish, these units are a pleasure to use.

WETLANDHUNTER®

The waterfowler hunts in unique settings and needs top performance from his most important asset: his retriever. So SportDOG Brand created a series of remote trainers specifically to meet those demands. The WetlandHunter® isn't some old product reintroduced with a new name. It was designed from the ground up by pros like Charlie Jurney, Chris Akin, and Tom Dokken, to name just a few members of the SportDOG team who stake their livelihood on how well their dogs perform. All transmitters and collar receivers are guaranteed waterproof and submersible, and they look outstanding – without standing out – because they are finished in Realtree Max-4® camo, a waterfowling favorite.

FIELDTRAINER®

The FieldTrainer® 425 Series is loaded with technical breakthroughs in the smallest package available in this price range. Features such as 3-dog capability and waterproof / submersible transmitters and receivers are among the most advanced features ever offered in a mid-range training system. With 500 yards of range, these palm-of-the-hand sized models are designed for field training and hunting with close-working dogs. The comfortable "soft-coat" transmitter finish makes these units a pleasure to use. And because we know that no two dogs are alike, we've designed the 425S model to provide higher stimulation power for larger or stubborn dogs

SPECIALTY GEAR

UplandHunter: From the big wide open of the prairie to the thick tangles of northern alder swamps, keeping tabs on hard-running pointing dogs calls for unique gear. Our UplandHunter® system fills that niche. This is the pinnacle of SportDOG Brand® efficiency. A situation-programmable transmitter controls a compact, waterproof collar receiver and at the same time remotely operates a rugged, waterproof audible beeper. Control and flexibility are always at your fingertips. Like all SportDOG Brand systems, the UplandHunter is easily expandable to multi-dog use with Add-A-Dog® collars.

ProHunter: SportDOG Brand has redefined the meaning of "classic" by meshing the ProHunter's traditional transmitter design with the same advanced features incorporated into our newest remote trainers. The new ProHunter® 2525 is a workhorse system that fits with virtually any sporting breed. With a range of up to 2 miles, it's ideal for hounds, beagles, and far-ranging pointing dogs. For hunters and trainers who want the best of both worlds, this is it! Once again SportDOG Brand delivers on our promise: *Gear the way you'd design it.*®

HoundHunter: With the introduction of a new HoundHunter® model specifically designed for controlling tracking and trailing dogs, you keep the thrill of the chase within your control. The model SD-3225 allows control of up to six dogs from one compact transmitter. It is ideal for hunters who pursue bears, bobcats, mountain lions, and raccoons with multiple dogs. With a range of up to two miles, keeping control of a long-range pursuit is easier than ever.

ALL-PURPOSE GEAR

YardTrainer: The YardTrainer 350 combines the simplicity of a basic e-collar training system with the versatility and ruggedness of a more advanced sporting dog trainer. The YardTrainer 105 is the perfect choice for training around the house or in the yard. Great for basic obedience training. The YardTrainer 105S is designed especially for tougher or stubborn dogs.

NoBark: The SportDOG Brand® NoBark 6 is the easiest-to-use bark stopper ever invented. Just turn the battery to the "on" position and put it on your dog.

The SportDOG Brand NoBark 10R and NoBark 18 will never mistake anything for your dog's bark except, well, your dog's bark. The patented design requires both the sound of your dog's bark and a tangible vibration from the bark to occur at the same time before it corrects your dog. Every other anti-bark system available triggers off one or the other, but not both. Hear the quiet?

In-Ground Fence: The SportDOG Brand In-Ground Fence is designed to keep your dog in yards up to 100 acres. Safe and effective for all dogs over 10 lbs. The system works by delivering mild correction through two Contact Points that touch your dog's neck. If your dog crosses the established barrier, a correction will be sent to get your dog's attention, but will not harm him. You can customize the level of correction to match your dog's temperament, and the adjustable collar allows you to create a perfect fit for your dog.

CANINE ATHLETE™

Day in and day out, your dog gives you 100 percent. To help him get the most out of all that effort, SportDOG Brand has developed the Canine Athlete series. Choose from or mix these six proprietary formulas blended with best-quality ingredients: HYDRATION – To help maintain normal fluid levels during extreme hunts; HIP/JOINT – To sustain normal joint function in challenging conditions; DIGESTIVE ENZYMES – To support healthy digestion and maintain intestinal health; SENIOR ACHES – To promote long-term health in your dog's late stages of life; PERFORMANCE VITAMINS – To help keep your dog in peak condition year-round; PERFORMANCE SNACK BAR – To use before, during, and after strenuous activity. Support your dog's health with Canine Athlete, and spend more time in the field where you – and your dog – really want to be.

CANINE ATHLETE

BEYOND BASIC NUTRITION.

PERFORMANCE VITAMINS

CA-VITAMIN: COMPLETE VITAMIN FORMULA

- EASY-TO-USE WAFERS SUPPORT AND MAINTAIN PHYSICAL AND MENTAL DEVELOPMENT, ENERGY, STAMINA, AND IMMUNITY
- INCLUDES VITAMIN AND MINERAL SUPPLEMENTS THAT COMPLEMENT

- DOG FOODS BY HELPING TO SUPPORT A VARIETY OF METABOLIC FUNCTIONS
- VITAMINS AND MINERALS HELP MAINTAIN YOUR DOG'S HEARING, VISION, AND SENSE OF SMELL

SENIOR ACHES

CA-ACHES: INFLAMMATION-PAIN RELIEF

- RECOMMENDED FOR SENIOR DOGS AND THOSE EXPERIENCING STIFFNESS, SORE MUSCLES, AND JOINTS DUE TO EXERCISE AND NORMAL ACTIVITY
- EASY-TO-USE WAFERS ARE ASPIRIN

- FREE, FOR DAILY USE IN REDUCING ACHES AND DISCOMFORT CAUSED BY NATURAL AGING AND DAILY LIVING
- SPECIAL BLEND OF ANTIOXIDANTS TO HELP MAINTAIN METABOLIC EFFICIENCY AND BODY STRUCTURE

ADULT HIP / JOINT

CA-JOINT: JOINT MAINTENANCE

- RECOMMENDED TO SUPPORT HEALTHY HIP AND JOINT FUNCTION; HELPS TO MAINTAIN JOINT FLEXIBILITY
- EASY-TO-USE WAFERS WITH SPECIAL FORMULATION OF ANTIOXIDANTS TO MAINTAIN METABOLIC EFFICIENCY, AND TO HELP SUPPORT STRONG BONES AND MUSCLES

- INCLUDES GLUCOSAMINE, CHONDROITIN, METHYLSUFONYLMETHANE (MSM), COLLAGEN, AND OMEGA-3 FATTY ACIDS THAT HELP MAINTAIN HEALTHY CARTILAGE, JOINTS, TENDONS, AND SYNOVIAL FLUID

DIGESTIVE ENZYMES

CA-PROBIOTICS: OPTIMUM DIGESTION

- ADVANCED FORMULA OF FIVE DIGESTIVE ENZYMES FOCUSING ON THE BREAKDOWN AND ABSORPTION OF PROTEIN, CARBS, STARCH, FATS, AND FIBER
- CONTAINS BOTH A PREBIOTIC AND A PROBIOTIC TO AID DIGESTION IN THE COLON AND SUPPORT AN OVERALL HEALTHY DIGESTIVE TRACT

- PRE-MEASURED EASY-TO-USE WAFERS

HYDRATION

CA-HYDRATE: MAXHYDRATE

- PERFECT BALANCE OF VITAMINS AND MINERALS TO AID METABOLIC FUNCTION FOR ENDURANCE AND NORMAL RECOVERY
- MICRONIZED POWDER INGREDIENTS IN 17 HANDY STICK PACKS FOR QUICK AND EASY IN-FIELD MIXING
- CONTAINS NO ARTIFICIAL COLORS

- FORTIFIED WITH ANTIOXIDANTS THAT SUPPORT ABSORPTION OF FLUIDS AND VITAL NUTRIENTS
- AIDS NORMAL HYDRATION AND HELPS MAINTAIN ENDURANCE AND THE BODY'S NORMAL RECOVERY PROCESS

PERFORMANCE SNACK BAR

CA-LIVERBAR-12: PERFORMANCE SNACK BAR

- EFFICIENT SOURCE OF CARBOHYDRATES (GLYCOGEN) HELPS SUSTAIN NORMAL PERFORMANCE
- WORKS IN CONJUNCTION WITH A DOG'S REGULAR DIET TO HELP MAINTAIN NORMAL EFFICIENCY DURING EXTENDED EXERCISE AND SUPPORTS YOUR DOG'S NORMAL POST EXERCISE RECOVERY

- NO ARTIFICIAL PRESERVATIVES
- READILY DIGESTIBLE SOURCE OF CRITICAL NUTRIENTS
- LOADED WITH QUALITY VITAMINS AND MINERALS TO LEND ONGOING SUPPORT TO NORMAL METABOLIC FUNCTION

The SportDOG Brand® Conservation Fund supports game populations by donating time and funding to projects that ensure hunters and their dogs will have wild places to pursue wild game for generations to come. From grants that fund local habitat-enhancement projects to large investments in partnerships with some of the most respected national conservation organizations in the United States, this program highlights our support of habitat and wildlife populations that depend on these natural resources.
