GEAR THE WAY YOU'D DESIGN IT®

Kevin Lee & Bullet

SPORTDOG™ SALES & FIELDSTAFF MANAGER
Labrador owner (SHR Bullet and Cooper), bird hunter,
deer hunter, and fisherman

The background is a dark, almost black, textured surface that resembles a close-up of a rough material or a night sky. A vertical stripe of bright orange is positioned on the right side of the frame. The text is white and positioned in the upper left quadrant.

That's not some marketing mumbo-jumbo written by a bunch of suits. We really are just like you and your buddies: Obsessed with dogs and hunting. And, like you, we spend as much time as possible walking the prairie, roaming the woods, or searching the sky from a waterfowl blind. We also respect the hunting tradition and know the importance of conservation. For all those reasons and more, we'll continue to create our products based on the guiding principle of providing *Gear The Way You'd Design It.*®

**OUR GEAR LEADS THE FIELD
BECAUSE WE'RE ALWAYS IN THE FIELD**

Lance Tracy & Ripley

CCO

English Setter owner (Ripley, Roxy & Lulu), bird hunter,
and big game hunter

In an industry seemingly overcrowded with electronic dog training products, Radio Systems Corporation's renewed venture into the sporting dog market with the creation of SportDOG™ in 2003 might have appeared to be driven only by misguided ambition. However, that was far from the case. Our broad line of superior products is the result of focusing on a promise we made to our customers on Day One: We will deliver *Gear The Way You'd Design It.*®

We have made good on that promise by literally designing our products in the field. A concept is nothing more than a concept until we analyze it with challenges such as heat, cold, rain, snow, dust, mud, and wind in mind. Every sportsman knows such conditions are just part of the hunt. So, once we've built a prototype product, it's back to the field for rigorous testing with input from everyone on our staff. To us, these field sessions are just another day at the office. And they are the difference between products that look good on paper or in advertisements and those that actually perform the way you demand.

That's how we've been operating from the beginning. It must have been what the industry needed, because today, SportDOG is the most recognized brand in the electronic dog training category. Our products are known not only for their quality, but also for being the best value for the dollar out there. Over the years we have added to our product lines, offering more variety. But no matter how fast we grow or how large the SportDOG name becomes, we will never forget our promise to keep making *Gear The Way You'd Design It.*

TEK 2.0

SportDOG™ was first to combine GPS tracking with e-collar training. Now, with TEK 2.0 technology, tracking and training is more reliable and more accurate than ever. Enjoy total control of your dog, or even up to 21 dogs (by simply adding TEK-2AD collars) with premium training features, along with feedback on their locations, via preloaded, full-color 1:100,000 topo maps. Simply put, no other system lets you hunt and navigate with such confidence.

SPORTHUNTER®

Josh Miller & Easton

PRODUCT TRAINING SPECIALIST

Labrador owner (Easton & Dixie), English Setter owner (Breeze & Ranger), upland and waterfowl hunter, deer hunter, turkey hunter, fisherman, and shed hunter

The rugged, versatile SportHunter® Series excels in all environments and is especially suited to upland and multi-dog hunting situations. The SportHunter Series can be expanded to control multiple dogs by adding SportDOG Brand® Add-A-Dog® collars. With the comfortable "soft coat" Transmitter finish, these units are a pleasure to use.

WETLANDHUNTER®

Darrell Douglas & Oz

CATEGORY MANAGER

Labrador owner (Oz), bird hunter, fisherman, and big game hunter

The waterfowler hunts in unique settings and needs top performance from his most important asset: his retriever. So SportDOG created a series of remote trainers specifically to meet those demands. The WetlandHunter® system isn't some old product reintroduced with a new name. It was designed from the ground up by pros like Charlie Journey, Chris Akin, and Tom Dokken, to name just a few members of the SportDOG™ team who stake their livelihood on how well their dogs perform. All Transmitters and Collar Receivers are guaranteed waterproof and submersible, and they look outstanding – without standing out – because they are finished in Realtree Max-5® camo.

WETLAND
HUNTER®

FIELDTRAINER®

Gretchen Goodson & Fern

MARKETING MANAGER

Labrador owner (Tibbs) and bird hunter

The FieldTrainer® 425 Series is loaded with technical breakthroughs in the smallest package available in this price range. Features such as 3-dog capability and waterproof / submersible Transmitters and Receivers are among the most advanced features ever offered in a mid-range training system. The comfortable "soft-coat" Transmitter finish makes these palm-of-the-hand sized units a pleasure to use. And because we know that no two dogs are alike, we've designed the 425S model to provide higher stimulation power for larger or stubborn dogs.

SPECIALTY GEAR

Lance Tracy & Roxy

CCO

English Setter owner (Ripley, Roxy & Lulu), bird hunter,
and big game hunter

UplandHunter: From the big wide open of the prairie to the thick tangles of northern alder swamps, keeping tabs on hard-running pointing dogs calls for unique gear. Our UplandHunter® system fills that niche. This is the pinnacle of SportDOG™ efficiency. A situation-programmable Transmitter controls a compact, waterproof Collar Receiver and at the same time remotely operates a rugged, waterproof audible Beeper. Control and flexibility are always at your fingertips. Like all SportDOG Brand® systems, the UplandHunter is easily expandable to multi-dog use with Add-A-Dog® collars.

ProHunter: SportDOG has redefined the meaning of "classic" by meshing the traditional ProHunter® Transmitter design with the same advanced features incorporated into our newest remote trainers. The ProHunter 2525 is a workhorse system that fits with virtually any sporting breed. With a range of up to 2 miles, it's ideal for hounds, beagles, and far-ranging pointing dogs. For hunters and trainers who want the best of both worlds, this is it! Once again SportDOG delivers on our promise: *Gear The Way You'd Design It.*®

HoundHunter: With the HoundHunter® model specifically designed for controlling tracking and trailing dogs, you keep the thrill of the chase within your control. The model SD-3225 allows control of up to six dogs from one compact Transmitter. It is ideal for hunters who pursue bears, bobcats, mountain lions, and raccoons with multiple dogs. With a range of up to two miles, keeping control of a long-range pursuit is easier than ever.

ALL-PURPOSE GEAR

Steve Kelley & Cold Creek Jake

SENIOR NATIONAL SALES MANAGER

Labrador owner (Meggie), bird hunter, deer hunter, and fisherman

YardTrainer: The YardTrainer 350 combines the simplicity of a basic e-collar training system with the versatility and ruggedness of a more advanced sporting dog trainer. The YardTrainer 105 is the perfect choice for training around the house or in the yard. Great for basic obedience training. The YardTrainer 105S is designed especially for tougher or stubborn dogs.

NoBark: The SportDOG Brand® NoBark 6 is the easiest-to-use bark stopper ever invented. Just turn the battery to the "on" position and put it on your dog.

The SportDOG Brand NoBark 10R and NoBark 18 will never mistake anything for your dog's bark except, well, your dog's bark. The patented design requires both the sound of your dog's bark and a tangible vibration from the bark to occur at the same time before it corrects your dog. Every other anti-bark system available triggers off one or the other, but not both. Hear the quiet?

In-Ground Fence: The SportDOG Brand In-Ground Fence is designed to keep your dog in yards up to 100 acres. Safe and effective for all dogs over 10 lbs. The system works by delivering mild correction through two contact points that touch your dog's neck. If your dog crosses the established barrier, a correction will be sent to get your dog's attention, but will not harm him. You can customize the level of correction to match your dog's temperament, and the adjustable collar allows you to create a perfect fit for your dog.

The SportDOG Brand® Conservation Fund supports game populations by donating time and funding to ensure hunters and their dogs will have wild places to pursue wild game for generations to come. From habitat-enhancement projects to large investments in partnerships with some of the most respected national conservation organizations in the United States, this program highlights our support of habitat and wildlife populations that depend on these natural resources.
