GEAR THE WAY YOU'D DESIGN IT®

Darrell Douglas & Oz

DIRECTOR

Labrador owner (Oz), bird hunter, fisherman, and big game hunter

That's not some marketing mumbo-jumbo written by a bunch of suits. We really are just like you and your buddies: Obsessed with dogs and hunting. And, like you, we spend as much time as possible walking the prairie, roaming the woods, or searching the sky from a waterfowl blind. We also respect the hunting tradition and know the importance of conservation. For all those reasons and more, we'll continue to create our products based on the guiding principle of providing *Gear The Way You'd Design It.*®

CONTENTS

**OUR GEAR LEADS THE FIELD
BECAUSE WE'RE ALWAYS IN THE FIELD**

Clay Thompson & Skeeter

SENIOR CATEGORY MANAGER

Labrador owner (LS), bird hunter, deer hunter, and fisherman

In an industry seemingly overcrowded with electronic dog training products, Radio Systems Corporation ventured into the sporting dog market with the creation of SportDOG® Brand in 2003, which might have appeared to be driven only by misguided ambition. However, that was far from the case. Our broad line of superior products is the result of focusing on a promise we made to our customers on day one: We will deliver *Gear The Way You'd Design It.*®

We have made good on that promise by literally designing our products in the field. A concept is nothing more than a concept until we analyze it with challenges such as heat, cold, rain, snow, dust, mud, and wind in mind. Every sportsman knows such conditions are just part of the hunt. So, once we've built a prototype product, it's back to the field for rigorous testing with input from everyone on our staff. To us, these field sessions are just another day at the office. And they are the difference between products that look good on paper or in advertisements and those that actually perform the way you demand.

That's how we've been operating from the beginning. It must have been what the industry needed, because today, SportDOG Brand is one of the most recognized brands in the electronic dog training category. Our products are known not only for their quality, but also for being the best value for the dollar out there. Over the years we have added to our product lines, offering more variety. But no matter how fast we grow or how large the SportDOG name becomes, we will never forget our promise to keep making *Gear The Way You'd Design It.*

SPORT
HUNTER

:: 1825X

The rugged, versatile SportHunter® Series excels in all environments and is especially suited to upland and multi-dog hunting situations. The SportHunter Series can be expanded to control multiple dogs by adding SportDOG Brand® Add-A-Dog® collars. With the comfortable "soft coat" Transmitter finish, these units are a pleasure to use.

RUGGED. VERSATILE. EXCELS IN ALL ENVIRONMENTS.

WETLAND
HUNTER

:: 1825X

The waterfowler hunts in unique settings and needs top performance from his most important asset: his retriever. So SportDOG® Brand created a series of remote trainers specifically to meet those demands. The WetlandHunter® Series isn't some old products reintroduced with a new name. It was designed from the ground up by pros like Charlie Jurney, Chris Akin, and Tom Dokken, to name just a few members of the SportDOG team who stake their livelihood on how well their dogs perform. All Transmitters and Collar Receivers are guaranteed waterproof and submersible, and they look outstanding – without standing out – because they are finished in Realtree Max-5® camo.

ESPECIALLY SUITED TO THE TOUGHEST WATERFOWL ENVIRONMENTS

FIELD
TRAINER

425X

Josh Miller & Sage

FIELD SPECIALIST

Labrador owner (Brock, Bud, Clyde, Strike, Bracken, Dixie, Solo, Tucker & Purdie), English Setter owner (Breeze & Ranger), bird hunter, deer hunter, turkey hunter, fisherman, and shed hunter

The FieldTrainer® 425X Series is loaded with technical breakthroughs in the smallest package available in this price range. Features such as 3-dog capability and waterproof/submersible Transmitters and Receivers are among the most advanced features ever offered in a mid-range training system. The comfortable "soft-coat" Transmitter finish makes these palm-of-the-hand sized units a pleasure to use. And because we know that no two dogs are alike, we've designed the 425XS model to provide higher static stimulation power for larger or stubborn dogs.

IDEAL FOR TRAINING IN THE YARD, FIELD, OR FOR HUNTING WITH CLOSE-WORKING DOGS

UPLAND
HUNTER®

:::1875

From the big wide open of the prairie to the thick tangles of northern alder swamps, keeping tabs on hard-running pointing dogs calls for unique gear. Our UplandHunter® System fills that niche. This is the pinnacle of SportDOG® efficiency. A situation-programmable Transmitter controls a compact, waterproof Collar Receiver and at the same time remotely operates a rugged, waterproof, audible Beeper. Control and flexibility are always at your fingertips. Like most SportDOG Brand® systems, the UplandHunter remote trainer is easily expandable to multi-dog use with Add-A-Dog® collars.

- :::1 MILE RANGE

PRO
HUNTER®

2525

SportDOG® Brand has redefined the meaning of "classic" by meshing the traditional ProHunter® Transmitter design with the same advanced features incorporated into our remote trainers. The ProHunter 2525 is a workhorse system that fits with virtually any sporting breed. With a range of up to 2 miles, it's ideal for hounds, beagles, and far-ranging pointing dogs. For hunters and trainers who want the best of both worlds, this is it! Once again SportDOG Brand delivers on our promise: *Gear The Way You'd Design It.®*

- 2 MILE RANGE
- 9 INSTANTLY SELECTABLE STATIC STIMULATION LEVELS; LOW/MEDIUM/HIGH STIM RANGES
- TONE AND VIBRATION OPTIONS
- EXPANDS TO 6 DOGS WITH ADD-A-DOG® COLLARS

- DRYTEK® WATERPROOF DESIGN TECHNOLOGY
- RECHARGEABLE LITHIUM-ION BATTERIES; CHARGE IN 2 HOURS
- ERGONOMIC, TACTILE TRANSMITTER CONTROLS ALLOW YOU TO KEEP YOUR EYES ON YOUR DOG, NOT YOUR TRANSMITTER

THE PROHUNTER SYSTEM ALSO INCLUDES: LOW BATTERY DETECT FEATURE / BASIC TRAINING DVD AND MANUAL
DRYTEK® TRANSMITTER & RECEIVER ARE WATERPROOF AND SUBMERSIBLE TO 25 FT., PER NEMA 6P AND IP67 STANDARDS

SD-2525

HOUND
HUNTER®

:::3225

With the HoundHunter® model specifically designed for controlling tracking and trailing dogs, you keep the thrill of the chase within your control. The SD-3225 allows control of up to 6 dogs from the compact Transmitter. It is ideal for hunters who pursue bear, bobcat, mountain lion, and raccoon with multiple dogs. With a range of up to 2 miles, keeping control of a long-range pursuit is easier than ever.

YARD
TRAINER

::100

The SportDOG® Brand YardTrainer 100 is designed for basic obedience training around the house, yard, or park - any situation where your dog is within 100 yards of you. It's a compact and discrete system packed with premium features at a value price. The YardTrainer 100S was built for more stubborn and easily distracted dogs by offering its static stimulations in a higher stim range than the YT-100. With more operating range, the YardTrainer Family also includes the YT-300.

NOBARK
SBC-R

The lineup of SportDOG® Brand bark collars is designed to match virtually any dog's temperament - as well as any dog owner's requirements. The entry-level SBC-8 features eight levels of progressive correction and has a user-replaceable battery. The mid-range SBC-10 features 10 levels of progressive correction and a rechargeable Li-Ion battery. The flagship SBC-R offers 10 levels of correction and lets you choose from three programmable training modes: Temperament Learning, Progressive Correction, or User-Selected. All collars feature new patent-pending bark detection technology. The SBC-R is waterproof and submersible to 10 feet, and the SBC-10 and SBC-8 are DryTek® - waterproof and submersible to 25 feet.

CONTAIN+
TRAIN™

SDf-CT

The SportDOG Brand® Contain + Train™ system provides all of the current containment capabilities of our In-Ground Fence™ system, combined with the remote training capabilities of our popular FieldTrainer® 425, allowing owners to secure their dogs within set boundaries, and train both inside those boundaries at home, and in the field.

CONTAINMENT MODE

- 7 LEVELS OF STATIC STIMULATION TO MATCH ANY DOG'S TEMPERAMENT
- VIBRATION/TONE OPTION
- EXPANDS TO ANY NUMBER OF DOGS WITH PURCHASE OF ADDITIONAL COLLAR RECEIVERS (SDF-CTR ADD-A-DOG® COLLAR)
- INCLUDES 1,000 FEET OF WIRE AND 100 BOUNDARY FLAGS
- EXPANDS UP TO 100 ACRES WITH PURCHASE OF ADDITIONAL WIRE & FLAG KITS (SDF-WF)

TRAINING MODE

- 500 YARD RANGE
- 7 INSTANTLY SELECTABLE STATIC STIMULATION LEVELS; LOW/MEDIUM/HIGH STIM RANGES
- VIBRATION AND TONE OPTIONS
- EXPANDS TO 3 DOGS WITH SDF-CTR ADD-A-DOG COLLARS
- COLLAR RECEIVER AND REMOTE TRANSMITTER FEATURE RECHARGEABLE LITHIUM-ION BATTERIES

SDF-CT

DRYTEK® REMOTE TRANSMITTER IS WATERPROOF AND SUBMERSIBLE TO 25 FT., PER NEMA 6P AND IP67 STANDARDS
COLLAR RECEIVER IS WATERPROOF AND SUBMERSIBLE TO 10 FT.

IN-GROUND FENCE™
SDF-100C

The SportDOG Brand® SDF-100C In-Ground Fence™ System uses a small and sleek Collar Receiver featuring a Li-Ion battery that recharges in two hours and has a one to two month battery life. The system has seven levels of static stimulation as well as vibration and tone, making it easier than ever to keep your dog safe and secure. With 1,000 feet of wire and 100 flags, you can contain an area as large as 1 ½ acres (or up to 100 acres with the purchase of additional wire and flags). Multiple dogs? Simply purchase additional collars. Dependable in any environment, the collar is DryTek® - waterproof and submersible to 25 feet.

The SportDOG Brand® Conservation Fund supports game populations by donating time and funding to ensure hunters and their dogs will have wild places to pursue wild game for generations to come. Large investments in partnerships with some of the most respected national conservation organizations in the United States highlight our support of habitat and wildlife populations that depend on these natural resources.
